Drive to the intersection of Hawkins Road and Parker Road. Bali Hai Stables is at that intersection. Drive south on Parker Road half a mile to the Metroparks Management Center on the left side of the road. Park behind the building on the right side adjacent to a residence. Walk to the north or left side of the Management Center beyond an iron railing and over a ravine to a grassy lane. Walk into the woods east for 150 meters to the point. Stay on the left side of the ravine, following the flags to the point. The point is on a catalpa sapling.
