

LL007

41.381357

81.836504

- From LL030, walk north to the edge of the woodline.
- Walk about 100 meters northeast into the marsh to a rain gauge.
- Continue northeast for 100 more meters. Enroute, cross Abrams Creek, about three feet wide. Either step into it (if you are wearing muck boots), or jump across it.
- Enter a woodline and look for tri-colored ribbons on a PVC pole, marked “LL007.”
