

LL022

41.365067

81.829484

- From LL018, walk 200 meters south through the marsh and find the PVC pole marked “LL022.”
- An alternative route is to return from LL018 to the boardwalk, then walk 150 southeast on the ATP and find a single ribbon on the left side of the APT marked “To LL022.” Then walk about 100 meters into the marsh to the point. However, you will encounter a bog. You can either cross the bog using muck boots, or skirt around it to the east or west to get to the point.
